## PROFIL

Currently in my second year of computer science, I have acquired skills in all areas of computer development. Adept of web development, I like to keep up with new technologies by doing personal projects. Passionate about UX/UI Design, I study it in parallel to my studies in order to improve user comfort. Team worker at heart, I have no problem working alone. I would like to use my skills to help a company to create new development experiences.

## EXPERIENCE

2021 - 2022

CAF74 (Club Alpin Français) - Developer WEB

Annecy, France - Team Project (second year university)

**Mission :** To manage the equipment for CAF74 which is a club that organizes sports activities in groups and that allows to rent sports equipment.

**Technologies :** For this project, we started from an existing project based on the Flask framework of the Python language. We also used HTML/CSS to improve the user experience.

## EDUCATION & QUALIFICATION
